LEGACY SEATS REMAINING

WHY AMPUHEALTH EXISTS

Built around the fact that *amputees live their lives.*

Over 2.7 million Americans are living with limb loss. The system that's supposed to serve them treats regular, expected prosthetic needs as exceptions — billing fights, prior authorizations, and denials for care that is completely predictable.

AmpuHealth is the infrastructure built on a different premise: that replacement is normal, upkeep is expected, and access should be smooth, certain, and guaranteed. We smoothed the process. We built the catalog. We planned for reality.

> *"After my training in prosthetic care, I watched patient after patient spend months fighting insurance for parts that cost less than a car payment. Liners. Sleeves. Basic components. Denied. Appealed. Delayed. Over and over. I built AmpuHealth because planning for reality should not be a fight."*

THIS IS DIFFERENT

The old way is dead.
Here's the new one.

WHAT IS THE 300

Not a donation.
A position.

The 300 is a founding membership allocation. You are not contributing to a fundraiser — you are **securing one of 300 permanent Legacy seats** in the AmpuHealth system before it opens to the public.

Every seat comes with real access, real benefits, and a permanent designation as one of the founding members who made this possible.

Permanent Legacy Status

Your founding designation is **permanent and non-transferable**. Never recreated, reopened, or expanded. These 300 are the only 300.

Lifetime Pricing Protection

All Legacy Members get **grandfathered pricing** — locked at founding rates for life, regardless of future public pricing.

Early System Access

Enter AmpuHealth before public launch with **priority scheduling, dashboard access,** and beta-phase participation.

A Voice in the Build

Real input on **catalog development, system refinement,** and the direction of AmpuHealth. Not just access — influence.

Only 300.
Not expanded. Not reopened.
